

# Huron River Hunting & Fishing Club

November 28th, 2017  
Annual Meeting

## Board Candidate for 2017

### Allan Pfitzenmaier

I have had the pleasure of attending the Huron River Club from time to time over the last 40 years, but have only been a member for the last 7. My wife and I have come to really enjoy the Club for its atmosphere and outstanding service and menu options that are always of the highest quality.

We have lived in Farmington and Farmington Hills for the last 42 years. We have been fortunate to be able to remain in the area although my business required frequent travel for most of those years. I have owned and managed a consulting firm serving the regulated medical products industries for the past 30 or so years. Our main focus was to design and engineer manufacturing environments that safely produced liquid injectable products in compliance with current industry and regulatory requirements. For the last 8 years I along with another partner have started up a contract manufacturing company that is designed and engineered to handle the unique requirements of the new biotech products being discovered today.

I believe I bring extensive experience to the Board as I have been congregation president of our church on two different occasions and have served as President of out home owners association for the past 5 years and treasurer for 15 years before that. The HRC has a great tradition that will inevitably be challenged to accommodate ever changing demands from its membership. If elected, I will use my varied experiences to deal with those challenges and make the best decisions to maintain the HRC's long tradition of excellence.
