

Huron River Club

Dear Fellow Members

Like you, your Club is paying extremely close attention to information from the CDC and the State of Michigan regarding the COVID-19 coronavirus. As we updated you last week, the Club has been doing its part to clean our facility to ensure the safety and well-being of all of our members and guests.

Today, the Governor has issued a blanket order that all restaurants and bars are to close at 3:00 pm on March 16, 2020. The only option available to the Club to serve the membership, subject to some strict rules, is through a carry out only dining service.

In order to offer some relief to our members during these unprecedented times, our staff is working on a menu and manner of distribution that we will help our members stay safe while enjoying some measure of normalcy at meal-time as we work through the days ahead. Look for a more detailed update in the next few days.

We will all get through this. While we may not be able to personally visit with you until we get the "all clear" from the State, we will do all that we can to provide you with a portion of calm as you dine on your Club favorites from the safety of your own home.

For the time being, all minimums will be suspended. Our Club has weathered the storm of the Great Depression. We have made it through times of wars. The Club survived the rioting of the 1960's and the attacks on our country on September 11, 2001. With your continued support, we will make it through these challenging times as well. Help us restore a bit of normal for you and your family as we work through these difficult times. We will update you shortly on how you can continue to enjoy at home the exceptional food that has made our Club special for nearly 100 years.
