

## House Committee Report 2020

The House Committee consisted of Barrie Armstrong, Lee Flaherty, Gary Vartanian and myself along with Laura Fox.

We started out the year with a focus on increasing the overall participation of the Club membership in Club events. Numerous ideas were raised and discussed based the success of prior club events along with experiences at other venues. We had begun to discuss implementation plans with Laura when Covid 19 suddenly turned our world upside down.

At that point the main thrust for everyone was to mount a strategy to maximize the options open to us to support the Club. At that point it became difficult to move forward with any coordinated plans due to the uncertainty of how local and State Governments would response to the virus.

The House Committee did not meet formally again for the rest of the year but several measures were taken to keep the club operating which had not been done before:

1. Staying open for the month of July
2. Starting a Carry-out service
3. Compliance with State Regulations on reopening
4. Compliance with State Regulations for traditional events
  - a. Car show
  - b. Clambake
  - c. Cigar Night
5. Electronic Voting

Finally, I have to give Laura Fox a tremendous amount of credit for how she responded to the unprecedented challenges that have occurred this year. In addition, I would like to thank those members who supported the club by participating in the Carry-out program and those who contributed to the Covid Relief Fund.

Respectfully submitted,

Allan Pfitzenmaier  
House Committee Chairperson
