## Letter from the President

Spring is in the air, and exciting new things are happening at Huron River Club! As President, first and foremost I would like to thank you for your patronage that makes our Club successful. For 100 years we have provided a fine dining experience for our members and guests in a cozy atmosphere and nothing makes us happier than your smiling faces.

This year we are replacing some big-ticket items in the **facility**. This summer a new air conditioning system is being installed in both the Fireside Room and the Hunt Room so the hottest days of summer will not impact your dining comfort. The aging boiler in the kitchen is also being upgraded to two new models. This new redundant system will provide all the hot water for the kitchen and the rest of the building.

**Good communication** is essential and we are providing new methods of disseminating information to you. You may read about upcoming events on our website, Facebook, and through Constant Contact emails. We are pleased to add Instagram as a new media source while we currently are working to add text messaging to our media lineup. We are also syncing our databases to ensure that we use your most recent contact information. You may help us by updating or verifying your information through our web site's member portal, or by completing a short contact card the next time you visit.

Since we have relaxed our **dress code** in recent years, we would like to request that our members enjoy the new freedoms without pushing the envelope further. It is uncomfortable for us to refuse entry of our members, family and guests due to **dress code** lapses. The Board of Directors has instructed the staff to enforce the dress code rules in order to honor those who do abide by them.

Our **kitchen staff** are critical to maintaining the high quality of the food that you enjoy. We have redesigned our food and beverage bills allowing an option for those who would like to add gratuity for the unseen heroes, our kitchen staff.

Lastly, stay tuned for upcoming events that highlight our 100th year anniversary! It is my great honor to serve you as we look forward to the **next** 100 years!

Thank you,

*David Birdsall*

HRC President
